**Description:** Horrible smell-flare flame has been burned out since Christmas Eve.

**Investigating Inspector:** Benbenek

**Investigation Findings:** Chris Cahnovsky, Bureau of Land-Collinsville received information via email from Denny Dennison at Waste Management, which indicated that there were no issues with the flare during the month of December. It should also be noted that a flare flame combusting landfill gas is not visible during the daylight hours. Therefore, it was determined that this complaint was not legitimate.
